

Program: Doctoral Academic Studies		
Course title: ECONOMICS OF EUROPEAN INTEGRATIONS		
Teachers: Prof. Dr. Svetislav Tabaroši, Prof. Dr. Miroljub Labus, Assoc. Prof. Dr. Branko Radulović.		
Course status: Mandatory for the field of Economics Analysis of Law, Microeconomics, and Macroeconomics, otherwise elective.		
Number of ECTS: 10		
Requirements: /		
Aims of the course: This course allows students to become acquainted with economic and institutional aspects of European integrations. Throughout this course, students will study in depth economic and legal aspects of European integrations. A special emphasis is put on the economic theory of European integrations and regulatory framework within the context of the EU accession process. The course covers some fundamental concepts such as customs union theory, optimal currency area, fiscal federalism etc.		
Course result: The completion of this course is expected to enable students to thoroughly understand the processes of integration, their respective effects as well as the economic aspects of the EU integration. Economic issues represent indispensable points of discussion in any debate that concerns the accession process. Therefore, the relationship between legal and economic processes is very complex. Lawyers who thoroughly understand economic causes and effects in relation to the integration process will be better able to understand the regulatory framework as well as specific policies in different fields. In addition, students will become familiar with potential contributions as well as limitations of the economic analysis of economic integrations. This will also enable them to analyze the accession of the Republic of Serbia to the EU.		
Course content: 1. Introduction to European integrations 2. Fundamental Freedoms 2.1. Free movement of goods 2.2. Free movement of persons (including workers) 2.3.
